Student Internships Available

Please consider applying for an internship with Daniel Kids, the oldest child-serving agency in the state of Florida.

For more information on internships, contact Laura Knowles at (904) 296 – 1055 or at lknowles@danielkids.org

Opportunities exist for both undergraduate-level and graduate-level candidates in roles including:

- Administration
- Direct Care
- Case Management
- Child Welfare
- Clinical Services

Interns are paired with programmatic staff to ensure a comfortable learning experience with increasing degrees of responsibility as the placement progresses.

Completing an internship will not only offer hands-on exposure to various social services jobs, but will position candidates for employment post-internship. Daniel offers a comprehensive array of programs from residential treatment and therapeutic foster care to outpatient and independent living and makes a practice of offering jobs to our successful interns.
